TIGER TALES

JAMES SHIELDS

To a Graduate.

Shields I have known
you for such a short
time, but in that time
I have been very aware
of you knowing that some
day Success will truly
be sure to come to you.
I hope you know what
I'm trying to put across
to you. Success will
surely come to you one
day. Shields always
remember this "God is
the remedy for your success,
but people are your
downfall for distress."
May God be your Captain,
and Success your guide.

Francine Ball "Class of 62"

Dearest Shelby,

It has been said that "all good things must come to an end," but I would not like to think of this happening to our relationship. Rather I should consider our relationship as coming into a state of hibernation, waiting until spring to again.

You are one of (if not the) sweetest persons I know. I love you very much. If you have the past year or I suspect that I shall always hold part, if not all, of this for you. You are a very, very nice person, clever, attractive, kind, gentle, witty, sweet and generous. Pray you remain that way.

You have much ability, so please put it to good use. With your working personality, know-how you should go to the top. Pray you attain all the best in life and even more than you deserve. I wish you all the luck in the world. Please try to find a spot for me in your memories.

Affectionately,
Jackie

Dear Shields,

Though we have had our differences, I am glad to have been your classmate. It has been so much fun being a constant bicker to a friend. I will always remember you for your pleasing air you have about you and your beautiful and warm smile that may melt many hearts if you just keep it. You have been such a wonderful friend that it makes it hard for me to put in words just how much your friendship has meant to me. James, remember that success comes before work only in the dictionary which means that you are going to be very successful because you've indeed such a (hard) worker. With all your (many) girls and such a warm smile and charm, may you never want for anything. You've such a sweet, generous, humorous and heart-warming friend that I am wishing that only the best be bestowed upon you. I shall remember you always as the "boy" with such big words and an even bigger heart to match. Good luck and may you never stop until you're at the very top top. It has been a great pleasure to sign my number 1 enemy's book.

A friend and classmate,
Debra Francine Bryan
"65"

PREFACE STATEMENTS

We believe that we can conquer social problems by means of mathematical calcuations and deductions.
M.L.H.S. is a miniature social order.
A school annual should present statistics, illustrated and defacto, which record the school log for one specific year.
Please accept the product of our time and efforts for we put these factors into a combination like the associative law of algebra.
We trust that our readers will enjoy and cherish Tiger Tales by '65, for this publication has provided us with a challenging philosophy for life in today's world where scientific methods are highly regarded.

Although our problems are sociological;
the solution is mathematical.

TIGER TALES

ACKNOWLEDGEMENTS

The class of '65 is very appreciative of the financial assistance given us by our patrons. We heartily thank each of these individuals or groups along with Mr. DeVane and the photography club, Mrs. Braxton, Mrs. Kent and all persons that have helped us find the solution set of our problem which involved publishing the school annual, Tiger Tales.

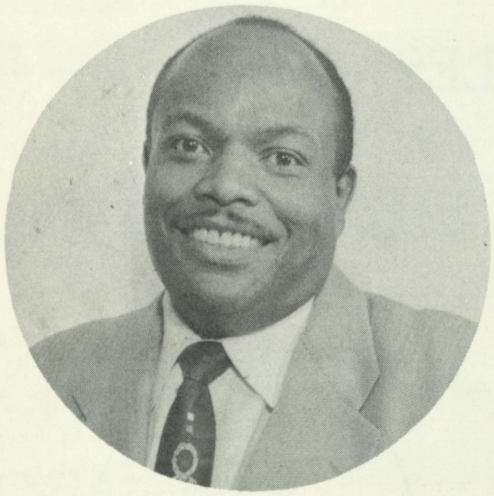
DEDICATION

Mr. H. B. Alford
What's the word Mr. Alford?
"Preparation"



Mr. A. L. Braxton
What's the word Mr. Braxton?
"Prudence"

Announcing Tiger Tales by
We, the Class of 65, an "If-Then"

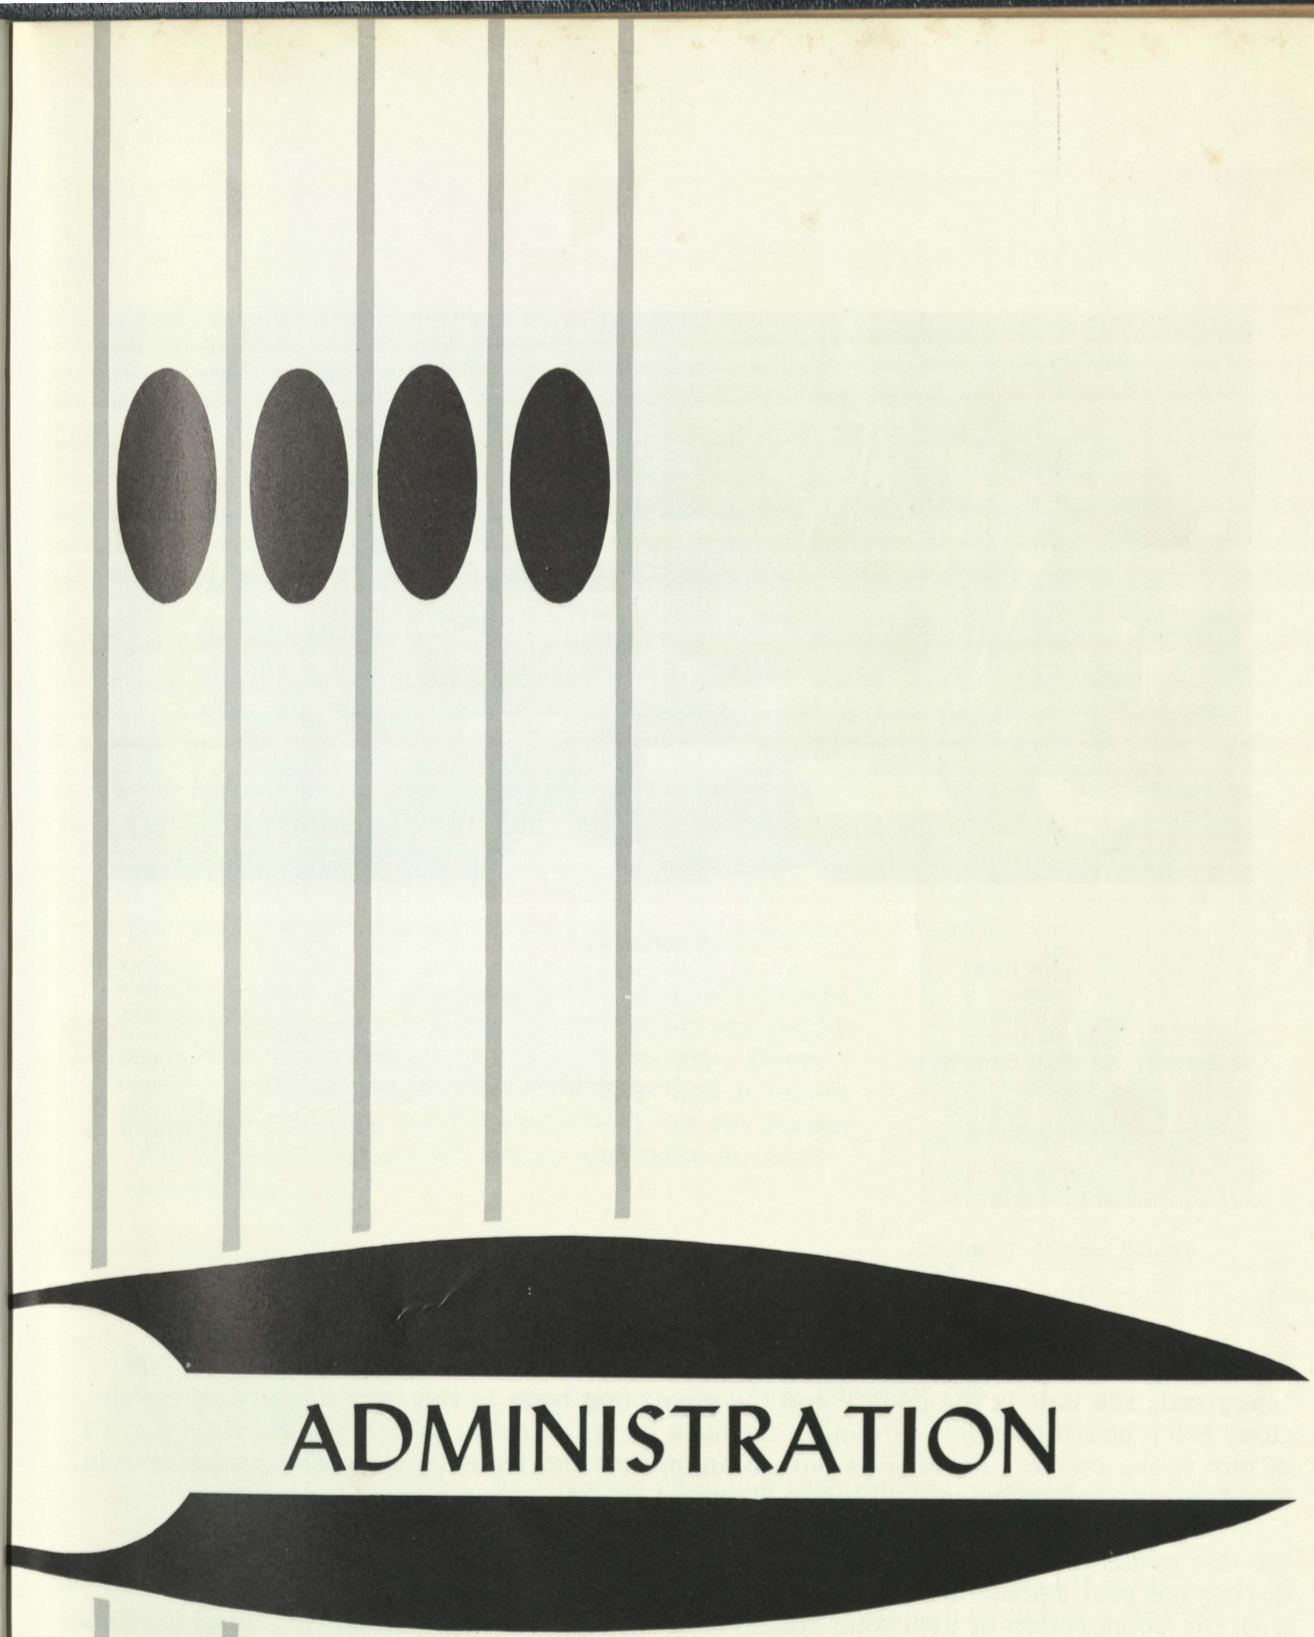
Surely producing Tiger Tales is a problem
And to find its solution set,
We turn to our understanding sponsors
Whom we will never forget
"Though world problems are sociological,
Solutions are mathematical, Class of 65.
There's a theme to guide you at this time,
And just as long as you're alive."

If you must look at the world and its people
And analyze problems society faces,
If you must identify conflicting forces
That challenge men of all races,
What of the theme we are using?
Think clearly -- please do this each day!
Understand our pal, SOCIAL SCIENCE,
So much like our own Mr. A.

If you must take any type of equation,
And proceed to figure the root out;
If you must work by formulated rule
You needn't have uncertainty and doubt.
What of the theme we are using?
Think clearly -- this is our plea!
Won't you turn to Mr. MATHEMATICS
Just as we turn to Mr. B.

Striving to produce better citizens
In a world difficult to understand,
You will find these two men working,
Elements of the same set, hand in hand.
The class of "65" announcing proudly
This year's annual comes to you
As the usual senior legacy
Lovingly dedicated to these two:
Mr. A. and Mr. B.

"The principal PROBLEMS of our day arises from the inability of man to control the SOCIAL FORCES he has SET in motion."



ADMINISTRATION

Board of Education

1. Mrs. Helen C. Waters	Member
2. Mr. O. W. Corkran	Member
3. Mr. J. Edward Walter	Vice President
4. Mr. Richard Matthews	Attorney to Board
5. Mr. T. Reynolds Carpenter	President
6. Mr. J. G. Busick	Superintendent of Schools and Sec. -Treas. of Board
7. Mr. Charles W. Wallace	Member
8. Mr. J. Otis McAllister	Member

Message From Board to Class of 1965

The basic characteristic of public education in America is that of local control. In Maryland, the unit is the county and the governing body is the county board of education. Each board member is chosen because of his interest in better education for all of our young people. As long as our communities and legal representatives believe in this interest and cooperate with our Board -- we will move forward together.

We are proud of our teachers, and our pupils. Education has made remarkable strides during the past decade and it is my hope that this improvement will continue. It can -- with the cooperation of everyone concerned. No one person can do everything to make this a better world but every individual can do something. Let's all do our part!

"Mathematical concepts and sociological problems have a distinct intersection of sets."

Miss Edythe M. Jolley

Message to Class of 1965 From Principal

Develop and maintain a sound philosophy of life. If your philosophy is sound, it will be inclusive of all that helps to develop one physically, intellectually, socially, morally, and spiritually. It will include your secular education and christian education. Periodically you will need to analyze, synthesize, and evaluate your philosophy. The changing times will have some effect on your beliefs but your philosophy must always be sound. Then it will serve as a safe guide through all situations that you will face.

Message to Class of "65" From Vice Principal

My dear young Friends,

Today is an era of change and as young individuals it is expedient that you prepare yourselves thoroughly to meet the problems of a changing society. Deep thinking, sound judgement and proper and accurate application of that which is practical are the guides that will determine your future and make success inevitable.

Mr. J. Warren Baldwin

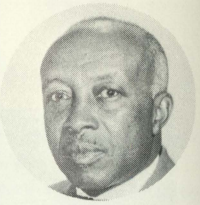
Mrs. Ruth D. Braxton

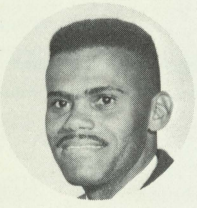
Tribute to Mrs. Braxton From Class of "65"

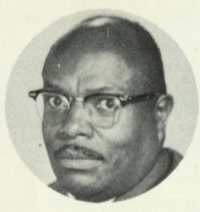
The Senior Class of 1965 wishes to honor Mrs. Braxton for her willingness to serve us and her work in helping to make all of our activities successful. Her patience and pleasing personality made all of these things possible. May God bless her and may she always wear a star of glory.

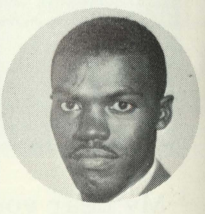
Class of "65"

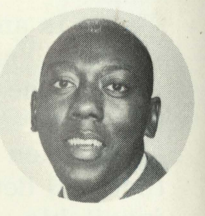
"The worth of a man is the worth of the things to which he devotes in life."











We express our appreciation to Dr. J. Edwin Fassett, our school physician and to Miss Maxine Magee, county public health and school nurse for supporting the physical fitness program in our school, and helping us to demonstrate, "Health is Wealth."

A Mathematical Look At The Class History

In 1953 the class of 1965 approached a sociological problem which involved the securing of a fundamental education on elementary and high school levels; in 1965, the class which was enrolled as first graders in the various elementary schools in Dorchester County in 1953, represented this equation:

12 years of school = 123 graduates.

Grades 1 to 6 Substitution

Upon entering school in the first grade, the sociological problem of getting along with others occurred. This problem was solved over a span of 6 years by kindness, understanding, courtesy, and respect.

$$\{K\} \cup \{U\} \cup \{C\} \cup \{R\} = \left\{\begin{matrix}\text{Happy relationships} \\ \text{with others}\end{matrix}\right\}$$

Grade 7 Triangulation

Famous battlefield + War memorials + Hanover Park roller coasters, hot dogs and fun ⟷ Gettysburg Trip, an educational experience of 3 dimensions.

Grade 8 Rationalize

$$\frac{(\text{Core class} + \text{Mathematics})\ (\text{Core Class} + \text{Science})}{\text{Music} + \text{Physical education})\ (\text{Physical education} + \text{Home Economics}}$$

or

Industrial Arts

$$= \frac{\text{Core class (Mathematics} + \text{Science}}{\text{Physical education (Music} + \text{Home Economics)}} = \text{8th Grade}$$

Ind. Arts

A schedule to show the distributive quality of the subject matter classes to 187 students.

Grade 9 Approximate

Guidance
Wisdom
Patience
* Devotion

Attributes of teachers + 171 students = Freshman Year -- a figurative average

Grade 10 Reciprocate

$$\frac{\text{Choosing Academic, General, Vocational, Commercial} = \text{3 Homeroom Sections}}{\text{153 Sophomores} \qquad \text{10th Grade Schedule}}$$

Grade 11 Analyze

$$\frac{\sqrt{\text{"Roman Holiday"}} + \sqrt[3]{\text{"Soul Serenade,"}}\ \text{Theme Song} = \text{Jr.-Sr. Prom, Highlight}}{\cos 139\ \text{Juniors} + \log\ \text{Seniors guests} \qquad \text{of Junior Year}}$$

Grade 12

In September 1964 For Successful School Year = 131 seniors enrolled in Academic, General, Vocational, Commercial courses, extra curricular activities, concentration, attendance, guidance, miscellany

June 1965 for Successful School Year = 131 High School Graduates

If Math is a way of thinking and social understanding involves not only knowledge but its application, then the class of '65 is justified in its assumption that though the problem is sociological, the solution is mathematical.

The impression of mathematics
on history is as deep as
the men who formulated it.

Scenes of our prom,
May 15, 1964
and a poetical observation
*
To the Junior Class Starred
by Miss Joann Bayneum
**

What's this, 'A Roman Holiday'?
No. It's prom night, 15th of May.

After such a grandiose,
impressive, spectacular vision

Every guest found it easy
to make this decision:

For a gala and happy evening
I'll always go to Rome

Which the Juniors have founded
in our Mace's Lane School Home.

B. B.

$$\{\text{The Class}\}$$

$$\{12A\} \cup \{12B\} \cup \{12C\}$$

Considering the notable sociological characteristics of the members of the members of the class, we have derived many mathematical equations, theorems, and hypotheses.

I. Hypotheses:

Each senior boy and each senior girl has a probability of 1 of success in his endeavors.

Proof:

success C seniors =1

II. Equating Factorials

(most talkative)! = (Jacqueline Keene) x (Doretha Robinson)

III. A Study in Fractions

$$\frac{\text{tallest} + 6'5'' = \text{Melvin Edwards}}{\text{shortest } 4'10'' \quad \text{C. Major}}$$

IV. Equalities and Inequalities

(a) $\frac{\text{Demureness} + \text{Reserve} + \text{Conservatism} = \text{David Granby}}{\text{THE QUIETEST STUDENTS} \qquad \text{Clara Adams}}$

(b) Best singers = Edith Murray + Sherwood Jarmon

$\forall$ singers = members of senior class

(c) Wayne Meekins + surprises = most unpredictable boy

Leila Dennis + surprises = most unpredictable girl

V. Set Theory

{shading, brush stroke, color} U {paints, charcoal, easel} U {Betty Ross + David Granby} = {most artistic}

VI. Summations

$$\sum_{\text{latest dances}}^{\text{popular music}} \text{Best Dancers} = \text{Arenda Sharps} + \text{Mary Camper} + \text{Josephine Sudler}$$

VII. Squares and Square Roots and Cubes

(a) $\sqrt{\text{the lively ones}} = \text{Rose Thompson} + \text{Robert Watkins}$

(b) Physical Fitness $\left\{\begin{matrix}\text{Most Athletic} \\ = \text{J. Shields x D. Bryan x C. Wheatley}\end{matrix}\right\}$

VIII. Addition Axiom

Given:

Happiest = smiles

(Pleasant personality) = Happiest

Brenda Hayward = Frederick Lane + Robert Watkins

Therefore:

B. Hayward Happiest = (Pleasant personality) + (F. Lane = R. Watkins)

IX. Associative Law

(Donald McCready + most scientific) + Deborah Downs =

Donald McCready + (most scientific + Deborah Downs)

"Musical Soliloquy of 65"
(Tune: On The Street Where You Live)

I have often walked down these
halls before, but
There weren't tears of sorrow in
my eyes before
All at once am I, saying my
goodbye
Knowing I'm leaving my Mace's Lane

There's no better school anywhere
in town
Do you have the Mace's Lane spark
in every part of town?
And does friendship flow out of every
door?
Only here at our dear Mace's Lane

But oh the sorrowful feeling
Just to know today that we go
Yet now the thought comes
a stealing
That we'll meet again, someday,
somewhere we know.

People stop and stare at our
friendly smile
That's acquired by everyone when
he has stayed awhile
Let the time go by I am
proud that I
Could be here a few years
at Mace's Lane High.

JUNIORS

Sponsors = Miss Spearman + Mrs. Green + Mrs. Jones.

"Mathematical FIGURES involve the combined EFFORTS of plane and solid GEOMETRICAL LINES in space cooperation."

Sherwood Jarmon

Sponsors = Mr. Woodard + Mr. Muldrow
Total Enrollment = 150

"The socialogical tangle may prove to be a mathematical triangle, -- base + sides."

JoAnn Bayneum

Junior Class Officers

SEATED: Pres., Denise Stanley; Vice Pres., Pauline Nichols; Sec., Sylvia Ennels; Asst. Sec., Dellyne Camper. STANDING: Vice Pres., Alfredy Pinder; Treas., Goldsborough Farrow; Sgt.-at-Arms, Barry Purnell; Chaplain, Gary Meekins.

Quotes from the Sponsors

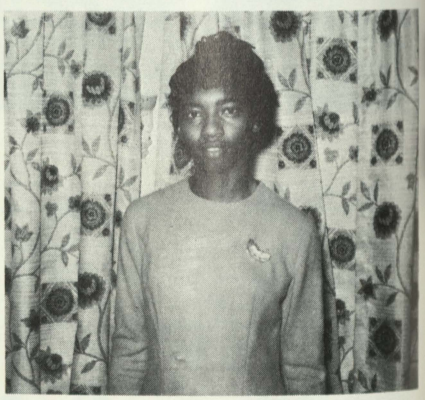
1. "I want you to be smart and I want your money."
R. M. Muldrow

2. "Remember behind the clouds,
The sun is still shining." J. L. Woodard

3. "Opportunity once does knock never known to pick a lock." D. Jones

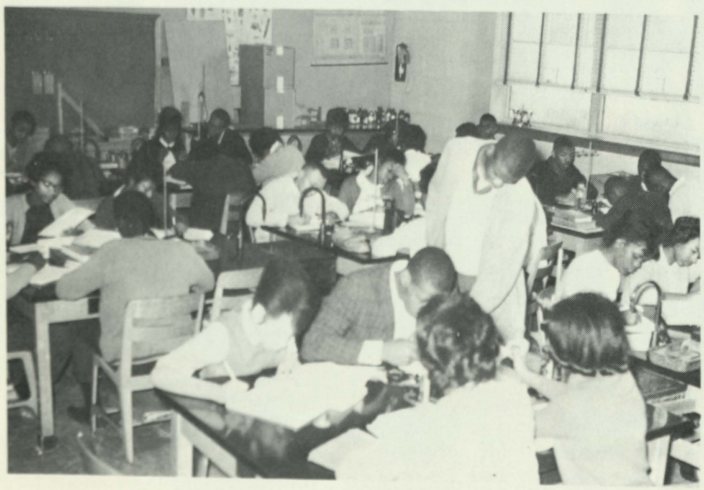
4. "Not at the top, but climbing."
B. E. Spearman

5. "Hitch your wagon to a star."
N. B. Green



Homecoming Participant
Doretha Dockins

Her challenge provided the spark of victory for the Seniors.

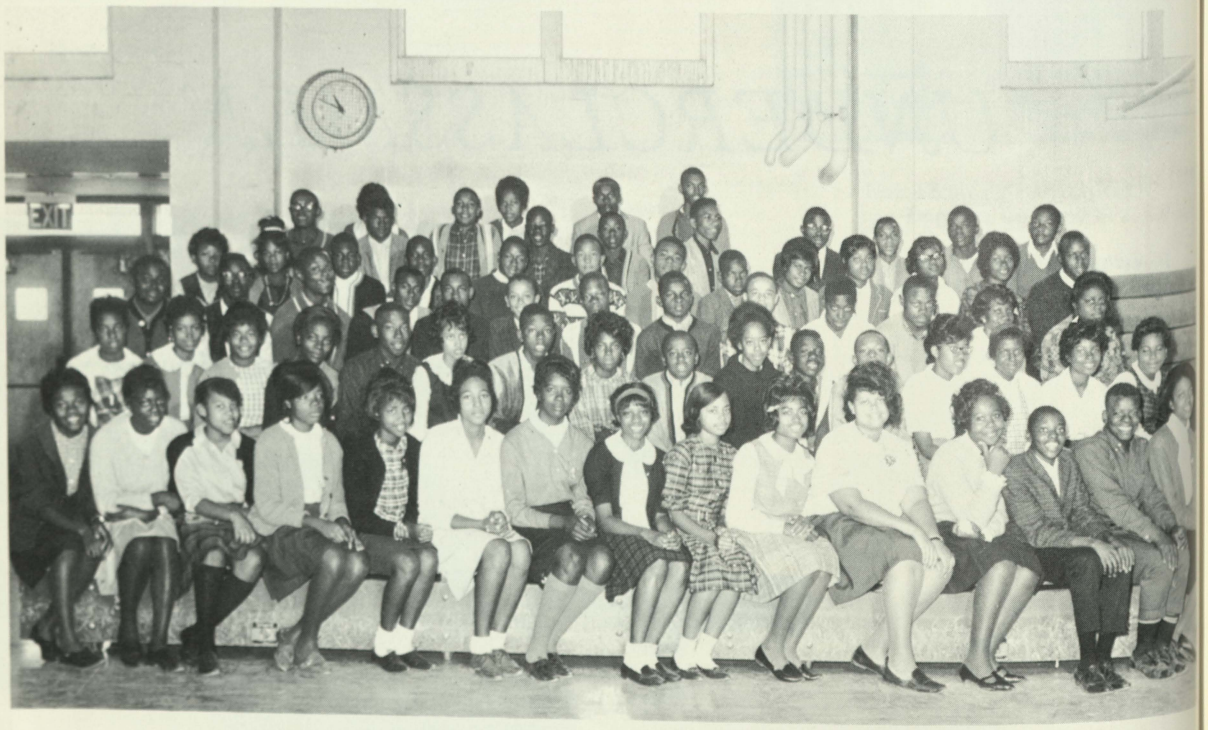


Experiments in chemistry.

"The dimensions of Knowledge are many." -- Margaret Banks

UNDERCLASSMEN

Enrollment -- 147
Sponsors -- Mrs. Clark, Mrs. Muldrow, Miss Perkins, and Miss Flamer.



Sophomores

A state of similarity often exists between genius and in sanity.
William Robinson

Enrollment 190
Sponsors -- Mrs. Kent, Miss Johnson, Mr. Smith, Mrs. Sample and Mr. Jones.

Freshmen

The elements for success and the elements for failure are a pair of disjoined sets.

-- G. Pinder

Enrollment 235
Sponsors -- Miss Miller, Mrs. Purnell, Mrs. Chester . . .

Greenies

The common factor in each man's life is the desire to be liked.

-- B. Brown

Sponsors -- Mr. Freeman, Mr. Rollinson and Mr. Gray.

Brownies

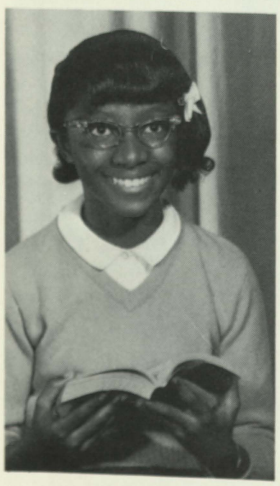
The perpendicular bisector of boyhood and manhood is the courage to say I'm sorry.

-- Wm. Robinson

Enrollment 141
Sponsors -- Miss Smith, Miss Reynolds, Mr. R. Brown, and Mr. Curry.

Literary Developments of Underclassmen

Student Reads 34 Books



Linda Hayward

Hats off to Miss Hayward of the seventh grade for having read thirty-four books during the 1963-64 summer vacation.

Math is a basis of thinking -- H. Bowens

When I Think Of Myself

When I think of myself
By the way I am and see
I often wonder what will come in
the future
And what will ever become of me.

Will I be strong and grateful
Will I be wrinkled and gray
Will people have much joy in me
Will they remember me day by day?

When I think of myself
I wonder if I'll be good or bad.
Will people have much trust and
belief in me,
Will I be lonely and sad?

I know not the reply to this,
I know not what I will be,
But whatever happens to me, I hope
to be
Self-respecting and conscience free.

Dear Friends,

I express a heartfelt thanks to you, the patrons, for your support in the production of our most important project -- Tiger Tales -- '65. You have come to the aid of the senior class in an exceptionally commendable way and as a result the job which seemed so tremendous at first was actually fun.

Thank you.

"The ELEMENTS of a great society are members of an infinite SET."

Dear Shields,

During the few years I've known you I find you to be a very nice person. May the road you take lead you to success and happiness. May you live a successful life filled with happiness. Life is what you make it so put your best foot forward. Always look for the best in the future. Strive for the best in life and you will succeed. I hope you will obtain your goal and get what you wish for in the years to come. I also hope our relationship will be a lasting one. Wherever you go whatever you do, most of all remember I love you.

Love forever & always,
(Girlfriend) Shirley Bishop

(May 4, 1965)

Dear James,

Never lose an old friend
No matter what the cause
I wouldn't ever do it
If we didn't look for flaws
There's nothing worthwhile like having
A friend who stands the test
And who has one friend such as this
Knows friendship at its best.

I will always remember you as a dear, sweet and wonderful young man. I hope that you have much success in all your endavors and forever remain as understanding as you are.

Love always,
Faye (Rockville, Maryland)
'65

James,

Make life as good as you did in basketball. Life only what you make it. I know you will make a good success and future.

Wayne
"65"
Mike

P.S. (Old Basketball Pal)

Shields,

May God be with you in all your endeavors. It has been nice knowing you through the past years. Keep striving and settle for nothing less than the best.

A Friend
Lee Adams

Shields

During the school year I have been very much aware of you. Your personality is very pleasing and your ability unlimited. With such ambitions as yours I'm sure you'll succeed in life. As you journey through life don't forget Third Period because I'll never forget you

Steve
'65

Dear Shields,

It is indeed an honor to write in the yearbook of one of the most distinguished members of the academic section of the senior class!

Since I have come to know you better, I have found you to be a hard worker. Oh, I know you have stopped working, but the only came towards the end. You're beginning to approach the golden gates! Before this, I know you worked hard, and even now you still do, but it's not in the line of school work!!! Such is understandable. I expect great things out of you, simply because you are one to get along with all types of people. You indeed appeal to me because of your unusual since of humor, your winning smile, and even your (intellect).

I could go on and on naming some of the wonderful qualities that you possess, but as I have a limited amount of space and I always think of the other fellow, I shall soon stop.

Before I do, I'd like to add: Continue to be the nice person you are and keep the girl wondering which one of them really is in your heart! (as if you knew yourself) smiles

I shall never forget your receiving the "Senior Physics Award" for dexterious manipulation of all assignment! (smiles)

The best for the best !!!

Your Classmate
and Friend,

Joleen

Lapenna
